

Program to find the reverse of a number

```
import java.lang.Math;

class reverse
{
    public static void main(String ar[])
    {
        int i,l,re=0;
        i=Integer.parseInt(ar[0]);
        l=ar[0].length();
        System.out.println("No is "+i+" "+l);

        while(i>0)
        {
            re=re*10+i%10;
            i=(int)(i/10);
        }

        System.out.println("Reverse of the number is :"+re);
    }
}
```

Output:

```
C:\Documents and Settings\Administrator\Desktop\java\7-08c>javac reverse.java
C:\Documents and Settings\Administrator\Desktop\java\7-08c>java reverse 2345
No is 2345 4
Reverse of the number is :5432
```
