

Basic Math Calculator Using Command Line Argument

```
a=$1
```

```
c=$2
```

```
b=$3
```

```
case $c in
```

```
+) z=`expr $a + $b`;;
```

```
-) z=`expr $a - $b`;;
```

```
/) z=`expr $a / $b`;;
```

```
x) z=`expr $a \* $b`;;
```

```
esac
```

```
echo answer is $z
```
