

Shell script to find whether entered year is leap or not.

```
echo "enter any year "  
read year  
  
ans=`expr $year % 4`  
  
if [ $ans -eq 0 ]  
then  
    echo "$year is leap year"  
  
else  
    echo "$year is not leap year"  
  
fi
```
